

PAMENDRA SINGH DHURWE

SOFTWARE DEVELOPER

Kohka Bhilai CG | +91 7974724742 | pamendrasinghdhurwe@gmail.com | linkedin.com/in/pamendra

As a highly motivated and detail-oriented Flutter developer, I aspire to leverage my strong technical skills and creative problem-solving abilities to contribute to innovative mobile app development projects. Seeking a challenging role where I can apply my expertise in Flutter framework, UI/UX design, and mobile application architecture to deliver high-quality, user-friendly applications. Committed to staying current with industry trends and continuously expanding my skill set to contribute effectively to the success of a dynamic development team.

PROFESSIONAL EXPERIENCE

April 2024 – Present

Software Developer | IIT Bhilai Innovation and Technology Foundation (IBITF) | Bhilai, CG

At IBITF, I have been leading the development and maintenance of advanced mobile applications using the Flutter framework. My role involves designing and implementing dynamic, responsive user interfaces with complex Flutter widgets and layouts. I utilize Dart for sophisticated application and business logic and integrate RESTful APIs and web services to ensure real-time data retrieval and updates. Additionally, I develop robust server-side logic and APIs using Node.js to support both mobile and web applications. My responsibilities also include managing databases to ensure efficient data synchronization between client and server, maintaining data integrity and consistency.

Projects :- Vidhya Samiksha Kendra (Education Department CG)

October 2023 – March 2024

Software Developer | Divyal Technologies Pvt Ltd | Bhilai, CG

At Divyal Technologies, I spearheaded the development and enhancement of mobile applications with the Flutter framework. I focused on creating intuitive and responsive UI components using Flutter's widget library and implemented complex business logic using the Dart programming language. My work involved seamlessly integrating RESTful APIs for real-time data operations. I thrived in an agile team environment, collaborating with colleagues to deliver high-quality mobile solutions on time.

Projects :- BharatAgriMarts , MoneyPlant Political Poster.

July 2023 – September 2023

Flutter Developer | Singhania IT Solutions | Raipur, CG

During my tenure at Singhania IT Solutions, I developed and maintained user-centric mobile applications leveraging the Flutter framework. I engineered responsive and visually appealing user interfaces with Flutter widgets and applied Dart for effective application logic and business logic development. I ensured real-time data operations through the integration of RESTful APIs and web services. My role also included participating in code reviews and collaborating with the QA team to maintain high standards of code quality.

Projects :- MotoPlatform.

January 2023 – June 2023

Flutter Internship | Divyal Technologies Pvt Ltd | Bhilai, CG

As a Flutter Intern at Divyal Technologies, I assisted in the development and maintenance of mobile applications using Flutter. I contributed to the creation of responsive user interfaces with Flutter widgets and layouts and gained experience in utilizing Dart for application and business logic. I was involved in the integration of RESTful APIs for dynamic data fetching and updating. Working closely with senior developers, I learned best practices in mobile app development and contributed to ongoing projects.

Projects :- Counter App , Elite Crm.
