SUMMARY

Motivated and detail-oriented fresher with knowledge in Frontend development and UI/UX design. Experienced in creating intuitive, user-friendly interfaces and enhancing user experiences. Check out my portfolio showcasing various projects and design concepts at [<https://ln.run/aPNW->]. Eager to apply these skills in a dynamic and collaborative environment as a fresher.

WORK EXPERIENCE

Cloud Technologys (Intern)

Feb 2021 - March 2021

Completed a one-month internship at a cloud technology company, specializing in the frontend domain. Gained hands-on experience in developing and optimizing user interfaces using HTML, CSS, and JavaScript. Collaborated with the development team to enhance the functionality and user experience of web applications.

RE TECH (Intern)

April 2023 - May 2023

Completed a 15-day internship in the UI Designing domain, focusing on creating intuitive and visually appealing interfaces. Utilized tools such as Adobe XD and Figma to design user-friendly layouts. Collaborated with senior designers to refine design concepts and improve user experiences.

CISCONETWORKINGACADEMYAICTE |Networking

Feb 2022 - Mar 2022

Led a cross-functional partnership with the networking team, leveraging comprehensive knowledge of OSI model principles to architect and optimize network infrastructure. Successfully implemented routing, switching, and network security strategies to enhance operational efficiency and safeguard data integrity.

THINK01PVT LTD |Android Developer

Aug 2023 - Sep 2023

Interned for 15 days at [THINK 01 pvt], gaining hands-on experience in Android app development using Android Studio. Assisted in designing, developing, and testing applications under senior developers' guidance. Demonstrated adaptability and quick learning in a fast-paced environment.

EDUCATION

Bachelor of Information Technology

August 2020 - May 2024

IFET COLLEGE OF ENGINEERING, villupuram
CGPA: 7.3

Higher secondary education

June 2019 - April 2020

St Joseph Matriculation Higher Secondary school
Percentage: 54%

SKILLS

- Frontend Developer
- UI Designer
- Graphic designer
- Figma Software
- AI Software
- Burp suite
- JAVA
- CCNA & Networking

ADDITIONAL INFORMATION

PROJECTS :

- **ALPR(Automatic Number Plate Recognition)**

Utilized state-of-the-art optical character recognition algorithms to accurately extract license plate information from images and video sequences, revolutionizing vehicle identification processes with unprecedented efficiency.

- **ANDROID BASED ONLINE VOTING SYSTEM**

This application provides is a new technique of casting votes using mobile phones. Android voting system is an application developed for android devices to deploy an easy and flexible way of casting votes anytime and from anywhere.

- **CARBON MONITORING SYSTEM USING IOT**

Developed a vehicle emission monitoring device to track carbon levels and alert government authorities upon limit exceedance. Led the project from concept to completion, showcasing strong problem-solving skills and attention to detail. Successfully integrated sensors and communication systems for real-time data transmission. Demonstrated commitment to environmental sustainability through technological innovation. Completed project within specified timeline, highlighting ability to manage and execute tasks effectively.

ACOURSES AND CERTIFICATIONS

- Frontend Development in GUVI
- UI/UX in Greate Learning
- Into to Graphic Designer in Greate Learning
- CISCO Introduction to Cybersecurity
- Introduction to Packet Tracer
- The Fundamentals of Digital Marketing

PROFESSIONAL TRAINING

- C2TC PROGRAM,TNS FOUNDATION UNDER CAPGEMINI PROJECT
- COMPLETED JAVA FULL-STACK DEVELOPMENT AND SOFT SKILL
- COMPLETED JAVA FULL-STACK DEVELOPMENT UNDER TALENT NEXT,WIPRO
