PROFILE

Java Selenium specialist with expertise in OOPS, data structures, and algorithms. Quick learner, detail-oriented, committed to ensuring software quality and reliability in dynamic projects. Positioned to contribute technically to testing processes and advance in the field.

EDUCATION

Bachelors Degree (75%) - 2020 to 2023 B.Sc
Higher Education (60%) - 2018 to 2020 HSE (+2)
Secondary Education (66%) - 2017 SSLC (10th)

PROFESSIONAL SKILLS

- Good knowledge of Core Java, Python programming languages.
- Proficient in Java Servlets for dynamic content generation and HTTP request handling in J2EE web apps.
- Sound knowledge of JavaServer Pages (JSP) for creating dynamic user interfaces in J2EE environments.
- Proficient in creating Test Cases, developing Test Scripts, preparing Test data, analyzing test results, and generating comprehensive defect reports.
- Proficient in of both Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC) methodologies.
- Proficient in Functional testing, Regression testing, GUI testing, Black Box Testing, Smoke Testing and System Testing.
- Proficient in utilizing Java for Selenium scripting, actively involved in the development and execution of automated test scripts using Selenium WebDriver for web automation tasks.
- Exposure to TestNG and JUnit for organizing and executing tests.
- Competent in Cucumber BDD for crafting and executing scenarios, integrating seamlessly with Selenium. Collaborative approach to refining feature requirements and translating business needs into executable scenarios.
- Proficient in Jira for issue tracking, project management, task/user story/sprint creation, and generating project reports.
- Proficient in SQL for database management.
- Proficient in JDBC for Java-to-database connectivity.
- Familiar with Git and GitHub for code versioning, collaboration, and project hosting.
- Proficient in Microsoft Office Suite with advanced skills in Excel, Word, and PowerPoint, enhancing organizational efficiency through expert document creation, data analysis, and presentation development.

PROJECTS

- Automated tasks on <https://adactinhotelapp.com/> using Selenium and JUnit annotations. Managed login, filled individual details, generated and printed order IDs for enhanced website functionality.

CERTIFICATION

Software Tester Certification

Certification on Java ,Python, Selenium.
