SUMMARY

Software Engineer with hands-on experience in Python and Django, specializing in building scalable backend systems and RESTful APIs. Proficient in integrating React.js for full-stack development, and experienced in CI/CD pipelines, cloud infrastructure, and containerization. Adept at collaborating with cross-functional teams to deliver reliable and maintainable software solutions.

SKILLS

Language: Python, HTML, CSS, JavaScript, React Js | **Frameworks:** Django, Django REST Framework
Databases: MySQL, PostgreSQL | **Tools:** Git, GitHub Actions | **DevOps:** CI/CD (basic), Azure
Cloud & Containerization: Docker, AWS (Lambda, SQS)

EXPERIENCE

Software Engineer	Devnex Technologies Private Limited	01/2024-Present
--------------------------	--	------------------------

AI-Driven Backend Development for Fashion E-Commerce Platform:

- Developed RESTful APIs to connect the AI virtual try-on engine with the e-commerce backend. Improved system responsiveness and enabled smooth AI integration.
- Implemented CI/CD pipelines using Azure DevOps to automate testing and deployment, ensuring a reliable and efficient production environment.
- Tech Stack:** Python, Django, RESTful API, PostgreSQL, Git, GitHub Actions, Pub/Sub, Azure, CI/CD

Associate Software Engineer	Cloute Technologies Private Limited	06/2024-12/2024
------------------------------------	--	------------------------

Achievements in Backend System Optimization for Industrial Equipment:

- Developed scalable backend systems to support real-time monitoring and streamlined operations for industrial solutions.
- Implemented automated stock tracking and reporting features, improving inventory accuracy and reducing manual effort.
- Tech Stack:** Python, Django, MySQL, RESTful API

Software Engineer Intern	Cloute Technologies Private Limited	01/2024-05/2024
---------------------------------	--	------------------------

API and Database Development Support for Industrial Applications:

- Assisted in building secure and efficient RESTful APIs to support key backend functionalities.
- Collaborated with senior developers on database design and API integrations, improving performance and maintainability.

PROJECT

Crop Selling App Using E-Digital Marketing:

- Developed and implemented a Crop Selling App leveraging e-digital marketing strategies, enabling farmers to list and sell their produce directly to buyers, improving market accessibility and profitability.
- Integrated features like real-time crop pricing, location-based buyer-seller matching, and marketing tools to enhance user engagement and streamline the agricultural sales process.
