## V-School

Bagyavathi Educational and Charitable Trust runs the Valaraigate Vidyalayam School. Valaraigate Vidyalayam School was started with the sole aim of providing the best possible education to the people of Tiruchengode (the native place of the trustees), irrespective of their economic status. The aim of the school is "to produce not mere intellectual giants, but humane and compassionate individuals, who will be prepared to face life with moral courage and conviction, always standing for what is right and worthy". With the rich experience the trustees gained living in the USA, and with the technical expertise of educationists like Eurokids International Pvt. Ltd. and iDiscoveri Education Pvt. Ltd., the school soon became a trend setter in the field of primary school education in the region. The activity based teaching/learning methodology, practical learning experience, colorful and safe ambience, huge collection of toys and play equipment, safe transport facility, all made it the most sought after school in the region.

## School Management System, Spain - Client

I test the PowerPoint, flash, audio and articulate quiz maker. According to the requirement given by the client, I write a description, test procedure, expected result and actual result and status. The report will be sent through mail or through Gemini tracking system, it contains issues id, summary, type of error, status, time to clear the defects, priority, component and an attachment explaining the exact requirement and comment (whether the software supports or not). LearnIt Apps are made to fully teach the mathematical concepts presented in an interactive and engaging manner. Each lesson takes students through a 30-minute interactive tutoring session. Concepts and mathematical definitions are explained and checkpoints for testing student's grasp of concepts are given.

**Role & Responsibilities:**

- Flash developer and Content Writer.

**Skills:** Action Script2.0 and Articulator Tools.
