PROFESSIONAL EXPERIENCE

Working as a Full Stack Developer in MERN at Ebrain
Technologies Since-June 2023

Even Management

2023-Present

- Event management involves the planning, coordination, and execution of various types of events.
- These events can range from conferences and trade shows to weddings, parties, concerts, and corporate gatherings.
- Weddings are celebratory events that mark the union of two individuals in marriage. Event managers coordinate all aspects of the wedding, including venue selection, catering, decor, entertainment, and logistics.

Technologies : React js,Bootstrap,Css Redux-saga

Food Website

2023-Present

- A food website is an online platform dedicated to the exploration, discussion, and sharing of food-related content. These websites cater to a diverse audience, ranging from food enthusiasts to amateur cooks, professional chefs, and anyone interested in culinary culture.

Technologies : React js,Bootstrap,Css Redux-saga

Employee-Portal

2024-Ongoing

- The eBrain Employee Portal is a comprehensive digital platform designed to streamline communication, collaboration, and resource management within an organization.
- It serves as a centralized hub where employees can access important information, participate in discussions, and stay connected with their colleagues and company resources.
