WORK EXPERIENCE

TATA CONSULTANCY SERVICES | FULL STACK DEVELOPER

Chennai | Feb 2022 – Present

- Software engineer with extensive experience in **JavaScript** (ES6+), React, Redux, web development, and strong attention to detail.
- Built a responsive **Contact Search** application using React, Node.js, and Express, enhancing interactivity and user experience, and successfully maintained ongoing updates.
- As a Full Stack Developer on an **Ember.js** application, I led the conversion of important components to React for enhanced performance and scalability.
- **Optimized** front-end with lazy loading, code splitting, throttling, and debouncing, cutting load time by 15 %.
- Leveraged my expertise in **unit testing** to validate the application's compatibility across different platforms and devices, ensuring a seamless user experience.

SKILLS

Front End: JavaScript, React js, Redux, Next js, HTML5, CSS3

Back End: Node js, Express js, MongoDB

Version Control: Git, GitHub, GitLab **Library:** Material UI

Framework: Tailwind CSS

Cloud: AWS

PROJECTS

SEARCH SYNC

NEXT JS, REACT, TAILWIND CSS, JAVASCRIPT

- Created the basic features and design of **Google**, the world's no. 1 innovative search engine application.
- The application was designed with a focus on responsive web design to provide **accessibility** for 90% of all devices.
- Pagination, shimmer effect, presenting **50+** web and picture results on the browser from the Google API.

VIDEO SHARING APP

REACT, REACT ROUTER, REDUX, TAILWIND CSS

- Created a YouTube clone focusing on a visually appealing user interface mirroring the original platform.
- Executed **lazy loading** with **Suspense**, made nested comments using **Recursion** and implemented **live chat using API polling**.
- Designed features allowing exploration of video descriptions and comments, supporting 50+ videos for a rich content experience.

FLIXFIND

REACT, REDUX, TAILWIND CSS, FIREBASE FOR BACK END

- Developed a Netflix clone using **React**, replicating the user interface and functionalities. **Integrated** ChatGPT 3.5 and OpenAI API to recommend movie names and fetch movie posters from the TMDB API.
- Used **Redux** 5.0 for state management, enhancing application scalability and maintainability.
- **Optimized** application using the single responsibility principle, **lazy loading** which reduce render time by 60 %

EDUCATION

Bachelor of Science in Computer Science

Puttur, Andhra Pradesh ON | Oct 2021

SRI VENKATESHWARA UNIVERSITY

GPA: 78%

CERTIFICATIONS
