CAREER OBJECTIVE

To contribute effectively to organizational success by utilizing my technical expertise, problem solving abilities, and commitment to excellence, while continuously enhancing my skills in a dynamic and collaborative environment.

PROFESSIONAL SUMMARY

- 1+ years of experience in React.js, Java specializing in scalable, responsive web applications.
- Expertise in state management using Redux and Context API for efficient front-end development.
- Skilled in JavaScript, real-time dashboard development, and performance optimization.
- Experience in implementing responsive design, interactive UI/UX features, and cross-browser compatibility.
- Proficient in debugging, optimizing performance, and writing reusable components.
- Strong communication Skills, team player, adapt at handling multiple priorities in Agile environments.

TECHNICAL SKILLS

- Programming Languages: Java, C#.
- Frontend: HTML, CSS, JavaScript, Redux, ReactJS.
- Database: SQL.
- Cloud Computing: Azure Fundamentals.
- Development Tools: Vite, VS Code, npm.
- Version Control: Git, GitHub.

EXPERIENCE

JOJO Software Solutions (formerly Redot solutions)

Software Developer | Sep 2023 – Dec 2024

- Optimized and maintained web applications with React.js, JavaScript, and Redux, enhancing UI responsiveness and functionality.
- Enhanced state management, reducing load times by 15% and ensuring seamless data flow.
- Integrated REST APIs for real-time data synchronization, streamlining processes.
- Improved UI performance by 25% through efficient client-side validations and reusable components.
- Implemented cross-browser performance improvements, reducing load times by 20%.

- Conducted code reviews to enhance team efficiency and ensure high-quality, bug-free code.

Frontend Developer Intern | May 2023 – Sep 2023

- In accordance with user experience standards, responsive, mobile-optimized interfaces and websites were designed and developed.
- Demonstrated capacity to swiftly adjust and incorporate new technology and techniques to promote project success.

Optisol Business Solutions

.NET Developer Intern | July 2022 – Sep 2022

- Designed a dynamic web application using ASP.NET MVC, Entity Framework, and SQL Server, implementing a robust data access layer and ensuring efficient CRUD operations.
- Create SQL queries and stored procedures with dynamic SQL to retrieve data from the database in Entity Framework.

PROJECTS

Product Recruit CRM: Developed a web-based recruitment management system using React.js and Redux, enhancing recruiter efficiency and workflow automation.

Yekta Technologies: Built and managed product listings and content integration for the company's digital platform, enhancing user engagement and accessibility. Developed and structured informative product descriptions, specifications, and media assets, improving product visibility and customer experience.

CERTIFICATIONS

- Microsoft Azure Fundamentals Certification.

QUALIFICATION

- Bachelor of Engineering in Computer Science Engineering at Sethu Institute of Technology (2018-2022) with aggregate score of 82%.

PERSONAL DETAILS

- Languages - English & Tamil.
- Hobbies - Reading books & listening music.
- Date of Birth - 21/05/2001.
